Roses for the Greenhouse and Garden

We can supply grafted greenhouse grown roses, ready about June 1st, out of 3½-in. pots of the following varieties for winter-flowering or outdoor planting. All of these varieties can be planted out in the garden in June and will bloom this summer and will make large flowering plants for another year. These varieties are hardy, but, like all Hybrid Tea varieties, need protection during the Winter months in some parts of the country.

**Briarcliffe.** This new variety is an improved Columbia, deeper in color, a pure pink. Bud is beautifully formed, long and pointed, every flower opening perfectly. Splendid grower, throwing long flowering stems. 85c. each, $8.50 per dozen, $60.00 per 100.

**Florex.** A beautiful new pink variety. Flowers are a lovely shade of pink entirely distinct from other pink sorts. $1.00 each, $10.00 per dozen, $75.00 per 100.

**Killarney, Double White.** Flowers pure white and similar to the White Killarney but with more petals.

**Matchless.** Flowers very brilliant deep pink or brilliant cerise. Buds long pointed of good form. Very fragrant. 85c. each, $8.50 per dozen, $60.00 per 100.

**Mignon, or Cecile Brunner.** Flowers small, light rose pink. Fine for conservatories. Own root plants only.

**Mme. Alexandre Dreux.** A very fine variety. Flowers deep orange, edged with yellow. 85c. each, $8.50 per dozen, $60.00 per 100.

Mrs. Calvin Coclidge. This variety is similar in habit to Ophelia and Mme. Butterfly, but the flowers are deep golden yellow which deepens into a rich orange as the flower develops.

Mrs. F. R. Pierson. This is a wonderful new red rose. It is a color hard to describe, a cardinal red or a very bright crimson. Buds long and pointed, of ideal shape and form. Exceedingly fragrant. Foliage dark green, with strong stems. 85c. each, $8.50 per dozen, $60.00 per 100.

**Premier.** Deep carmine pink. A very fine variety.

**Rapture.** This new variety is a greatly improved Butterfly. Flowers very much brighter and deeper in color. $1.00 each, $10.00 per dozen, $75.00 per 100.

**Souvenir de Claudius Pernet.** Flowers large, very deep lemon yellow. $1.00 each, $10.00 per dozen, $75.00 per 100.

**Templar.** A very fine red variety. Extra.

All of the above varieties, strong grafted plants, out of 3½-in. pots, ready about June 1st; 75c. each, $7.50 per dozen, $50.00 per 100, except where prices are noted.

GROWN IN TUBS FOR SUMMER BLOOMING

We have a fine lot of large plants grown in butter tubs for June and July flowering.

The plants that we offer are well budded and begin to show color in June, and are in perfection during June and July—the time of the year when they are most in demand. Nothing is showier or more satisfactory for lawn or piazza decoration.

OTAKSA—The Standard Pink Variety

Extra fine plants in 14-inch common butter tubs, $5.00, $6.00 and $7.50 each. If plants are wanted in new cedar tubs, painted green, with handles, the price will be $2.90 to $3.40 additional, according to size.
Photograph of blooms of our new Rose, “Mrs. F. R. Pierson”

New Red Rose Mrs. F. R. Pierson

Winner of the Coolidge Gold Medal offered by President Coolidge at the Flower Show, held at Grand Central Palace, March 16, 1926, also the Gold Medal of the International Flower Show, and four other Gold Medals; The American Rose Society Gold Medal at Philadelphia, March 9, 1926; Cleveland Flower Show, Spring 1925; Horticultural Society of New York Gold Medal and Gold Medal of the Massachusetts Horticultural Society, November 1925. Also several Silver Medals and Certificates of Merit.

This is a wonderful rose, the best red rose ever introduced. It is a color hard to describe, cardinal-red, or as described by New York experts, “a crimson rose flooded with sunshine.” Long pointed buds of ideal shape and fine form. Exceedingly fragrant. It has heavy, dark green foliage and strong stems.

We also introduced the new hardy golden yellow rose

Mrs. Calvin Coolidge

This variety is one of the most popular yellow roses ever introduced; color, deep golden yellow which deepens into a rich orange as the flower develops. For prices of the above new roses, MRS. F. R. PIERSON and MRS. CALVIN COOLIDGE, see page 2.
